METHOD

PREPARE RAP CUSTARD

STEP 1

Add cold TAP water and RAP mixture to bowl.

STEP 2

Blend on low speed for 1 minute and scrape down.

STEP 3

With a whisk, mix for 5 minutes on high speed.

STEP 4

Leave to stand for 15 minutes prior to use.

Note: Once made-up the bulk custard can be kept in a sealed container at <5°C for up to 3 days, provided good sanitation and handling practices occur.

HOT CROSS BUNS

STEP 1

Place products into a bowl and mix in a spiral mixer for 2.5 minutes on 1st speed, then 4.5 minutes on 2nd speed, or until optimum dough

development to achieve a finished dough temperature of 26-28°C.

STEP 2

Scale buns into 80g pieces.

STEP 3

Intermediate proof for 10 minutes.

STEP 4

Mould by hand or as per manufacturer's recommended settings through machine.

STEP 5

Tray up buns, ensuring buns are placed in straight rows to allow for easier piping.

STEP 6

Proof for 45-50 minutes at 85% relative humidity, 37°C.

STEP 7

Pipe RAP Custard cross on buns using a flat end nozzle to limit the bake height of the custard cross.

STEP 8

Bake at 210°C for approximately 18 - 20 minutes or until golden brown.

STEP 9

Remove from oven and brush immediately with sugar wash and place on cooling racks.

FILL HOT CROSS BUNS

STEP 1

When the buns have cooled use a size 7 round piping nozzle, filling RAP Custard through the rounding hole in the base of the buns. This will help limit the custard spilling out.

STEP 2

Fill using 30-35g of RAP Custard per bun. The nozzle should be inserted approximately 10mm into the bun and pulled down while filling.

YIELD

Makes approximately 98 buns
